Michael Bodman

Personal summary

Michael Bodman is a dedicated professional to the sport, leisure, recreation and parks industries. His knowledge and skills span 15 years of operations and event delivery, sport, recreation and government planning, facility management and commercial business development.

Michael's work history includes major event planning and delivery in Sydney and Manchester (Olympic, Paralympic and Commonwealth Games). He also has international experience in sports facility and stadia development, having worked with the UK's largest sporting charity, the Football Foundation, as a consultant advising on, developing, and managing sports facility development projects.

Michael has led a number consultancy practices in both London and Melbourne, managing a variety of projects for sport and government, and education and community organisations. Extensive consultancy experience within these sectors, combined with experience in managing leisure facility and services contracts in local government, provides him with a well rounded approach to both facility planning and management.

Michael's work with Parks Victoria's Commercial Business Unit adds further strength to his business and operational experience, with a focus on developing economic and operational efficiencies for the state government across their parks estate.

As Director of *insideEDGE*, Michael is focused on providing quality, well researched plans, strategies and proposals for local and state government clients and to the sport and recreation industry. Michael is also considered a national tennis industry leader, working on an ongoing basis with Tennis Australia and a number of state and regional tennis bodies. His industry development work has also contributed to the increase in quality outcomes for both community and elite level sport across Australia.
